#### THE CENTRAL STRIKE.

The Executive Council of the United Order of R. R. Employes, Lave investigated the cases of the big railroad strike and endorsed Hereby announces hin self as a candidate Powderly It arrived at the follewing conclusions:

First-That the p-sition of the Knights of Labor as set forth by Powderly meets with our unqualified approval.

Second-The course pursued by We b toward Powderly and the Knights of Labor, notwithstanding his declaration to the contrary, evinces a purpose to disrupt and destroy labor organizations.

Third-The policy of Webb is despotie, to the extent that it out rages every principle of American-

The fourth clause denounces Webb's employe ent of Pinkertons Fifth-That the efforts now betor, trainmen and switchmen; and if successful it is only a question of made to seal the fate of other | 11th, 1890. labor organizations

Two other clauses denounce Webb and Vanderbilt in general

Webb announces that the company will spend \$2,000,000 to beat the strikers.

are not generally known here, it is reasonable to suppose that men Central Committee and that the are not going to quit work and delegates be apportioned as follows: Rep esenting Combined Capital of 1 main idle with families depending on them, unless they have real grievances,

The main grievance of men working on eastern roads is long hoors, hard work, and low pay. If the company had in past years paid its men half of the two million it now proposes to spend in fighting them, there would be no strike.

Some of the eastern roads pay as low as 90 cents a day, and expect men to support families on that sum. The cause of these wages is the greed of the capital. Connelly. ist and combined with the overstocked labor market, wages will continue to be low as long as Lang and James Hickey. foreigners are dumped on our shores at rate of several thousand a week.

#### MONEY BADLY SPENT.

The APPEAL understands that \$15,000 is appropriated each year by the U. S. Government to maintain an Experimental Station in connection with the State University. As far as we are able to learn the cause of agriculture is not advanced by these experiments.

About all that was done last year was to maintain a bean patch a few yards square. These beans c st about a dollar apiece and were not very remarkable beans at that. A few turnips were also grown near the beans and the percentage of carbon or nitrogen or albumen ascertained by some means or another. Now what the people of this State want most of all is some good nutricious fodder grass that will withstand the drouth and grow without irrigation.

There are various grasses in South America and Australia that derive their substance from the atmosphere. Some of these grasses thrive luxuriously in arid boils and the \$15,000 for experiment ought to go in this direction. Again the experiment ought to be conducted by practical farmers in different parts of the State.

Let twenty farmers be given 💆 🕱 \$500 each to experiment with various plants and in that way some practical results can be arrived at and the Government can soon ascertain what localities are best adopted to certain plant growths.

The Board of Trade ought to investigate this matter and make some reccommendation to the general Government.

Charley McCaully, a young man about nineteen years old, shot and killed Alfred Craighill at Bean's Hotel, Santa Margarita, Saturday afternoon. Public sentiment seems to justify the killing.
